Code Meaning Description                          A   B   C
0    stop    end of sequence
1    Vel     keep angle-set speed                 V
2    Dist    keep angle and speed-set distance    V   D
3    Angle   keep speed-set angle                 V   Phi
4    Angle   keep speed-set angle toward X, Y     V   X   Y
5    Speed   keep speed-walk toward X, Y          V   X   Y
6    Delay   wait n x 50ms                        Time

Units
  Angle=deg, Speed=mm/s, X-Y=mm, Delay=n x 50ms
```
